IZKK

INTERNATIONAL CONVENTION CENTER FOR CULTURAL HERITAGE PRESERVATION

OUR OBJECTIVES

The IZKK specifies itself as a competence centre for preservation methods and conservation materials which are developed and adapted in a close cooperation with the Fraunhofer Institute for Silicate Research ISC. The big benefit is the practical collaboration of various scientific and craft disciplines to preserve cultural heritage.

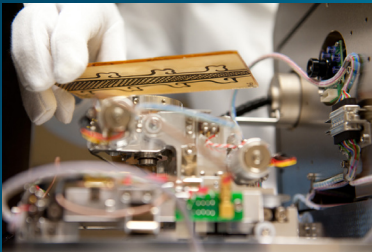

OUR METHODS

The IZKK provides information and training on the latest methods for the preservation of materials of various types. The offer is aimed at architects, technicians, master craftsmen, restorers, curators and all those involved in the protection of cultural assets, in exchange and dialogue with academia, research institutes, and museums.

OUR MISSION

All-in-one perfect service for bringing together different cultural heritage disciplines from all over Europe

- Conceptual design of events, meetings, workshops and conferences.
- All-inclusive organization of accommodation and catering to transfer and social program
- Promotion of sustainable research and development.
